IDEAL AIR SOLUTIONS FOR POOL OPERATIONS, MAINTENANCE

— Creating a perfect indoor air quality for high humidity applications

smart air solutions.

Creating a comfortable environment for swimmers

Corrosive chemicals and poor ventilation can ruin a day at the pool. However, the right combination of fabrics and flow models prevents the indoor air quality of pool areas from taking a nosedive while providing an aesthetic discreet duct profile.

EVEN AIR DISTRIBUTION

- Distributes air evenly throughout the facility.

EASY INSTALLATION

- As simple as it gets; no heavy machinery or special tools required.

LONG LIFESPAN

- Proven durability for decades to come.

CORROSION-RESISTANT

- Fabric does not rust, thus eliminating the risk of corrosion.

IMPACT RESISTANT

- Ducts are flexible and can maintain their shape even after accidental bumps.

HIGH INDOOR AIR QUALITY

- Creates a perfect and draft-free environment for a nice day at the pool.
